FRIDAY OCT 16

<p>11:15AM - 12:30PM</p>	<p>Ponce De Leon III</p>	<p>Florentine Flogging and Dragon Tail Class/Demo Sir James n Lady Beth Sir James & Lady Beth have developed a class/demo to share with others what they have learned. This class/demo covers everything from types of floggers, beginning with soft "warm ups" to heavy "closers", and their techniques for learning the four count double Florentine that they specialize in. Several years ago they expanded this class/demo to include dragon tails.</p>
<p>11:15AM - 12:30PM</p>	<p>Ponce De Leon II</p>	<p>Fire Cupping / Fire Play Ms. Rebecca Fire cupping, a type of fire play, is considered edge play and can be very sensual or more intense. Fire cupping is performed by using fire to create a vacuum in a glass cup which when placed on the skin sucks the skin up into the cup. This can mimic the effects of a deep tissue massage by moving the cups and creates hickey like marks by drawing blood to the area. We like to use fire play in conjunction with fire cupping to create fun and memorable scenes.</p>
<p>11:15AM - 12:30PM</p>	<p>Ponce De Leon I</p>	<p>Anal Play and Anal Sex Workshop Mistress Gigi Have you avoided anal play due to fears of it being painful or messy? In this workshop techniques will be covered to eliminate all pain of penetration. With the use of an anal douche, anal play can be clean and fun. In addition, the following topics will be covered: Safety Issues, Taoist Anal Massage, Anal Anatomy, Anal Toys, Special Erotic Areas Both Inside and Outside the Anus, and Anal Muscle / Deep Breathing</p>

		<p>Coordination. The benefit of anal sex for women is amazing uterine orgasms and for men amazing orgasms resulting from prostate stimulation. With men, one can even milk the prostate gland which produces a prolonged state of ecstasy. For some, anal play can be used as a form of humiliation play, especially when the submissive is “forced” to perform rimming on the Dominant or on another submissive.</p>
<p>12:45PM - 2:00PM</p>	<p>Ponce De Leon III</p>	<p>Understanding Nine Archetypes of Service Submissives</p> <p>Sea</p> <p>Are you a dominant who is uncomfortable to receive service, or cannot fathom why someone would want to clean your house? Are you a dominant who took on a service submissive and would like to understand what fulfills the submissive so as to have the service relationship last? Are you a service submissive who has felt unfulfilled and had difficulty conveying what is important to you in service relationships? In this interactive seminar, we discuss the challenges faced by dominants and submissives with respect to service. We then discuss archetypes of service submissives, why each archetype likes to provide service, and how to identify these archetypes. We next talk about how identifying these archetypes helps determine compatibility, and what can enhance or deflate motivation to serve for the different archetypes.</p>

“HEADSPACE TO SUBSPACE - LAUNCH THE SUBMISSIVE”
Sir James n Lady Beth
Sir James’ first step out into the open play community was at a 1763 play party. During the night he saw a bottom be put into subspace during a flogging scene. Like many people who are new to public play, he did not really believe that subspace actually existed, or that he would ever flog a woman! However, as soon as he saw it happen, he said to himself, “I do not know exactly what I just saw, but I must learn to do that!” This discussion will be about what he and his Lady Beth have learned during their years out in the public play community about the Top’s role in getting the bottom into a pleasant subspace and how the bottom can make it easier for the Top to take them there. It will cover everything from ways to begin to build “headspace” prior to playing to “aftercare”!

<p>11:15AM - 12:30PM</p>	<p>Ponce De Leon III</p>	<p>LEARNING TO PLAY WITH THE DISABLED AND SPECIAL NEEDS:</p> <p>Lady D</p> <p>I have been blessed with helping to raise a "special needs" granddaughter and I have had the pleasure and privilege to play with many disabled persons. Although disabled and special needs are not the same; all of them require special things and I had to learn those needs in order for our play to be effective and mutually satisfying. Whether the person is blind, deaf or have a disease or physical or mental limitations that you must be aware of; you must learn about what is required to be able to play with the individual. For many, the fear of not knowing what to do or in hurting someone (not in a good sense) keeps many people too fearful to engage in this type of play. However, if you learn about the illness, the disability or disease and what is required; you can play with them safely and with the same risk as any other person. What you gain from this play (besides the comfort level that comes with the experience) is invaluable knowledge that you may otherwise have never been exposed to. This is a valuable class for those who would like to become more comfortable and educated about playing with disabled and special needs persons.</p>
